

**Feldpost Mailing Box:**

Box was designed to include a letter on the inside of the box that the sender would fill in before adding the contents. Copied from an original in my collection.

Print on heavy cardstock (200lb). Make sure that 'fit to page,' 'shrink large pages,' and 'custom' are not checked. Follow the cut/fold lines that are visible on the picture from the original.

Box is not to be reproduced and sold.
