

Reproduction Ruprechtbrau Beer Label:

Print on either sticker paper, or lightweight white printer paper for best results. Cut around outside of label to desired size. If using sticker, peel and stick on your favorite 'European' style beer bottle. If using printer paper, run a glue stick around the back side of the label and again stick on your favorite 'European' style beer bottle. Note, paper labels will most likely come off if submerged in water.

Label is not to be reproduced and sold.

Dane Lengerman Collection (Andrew Kerwin Artist, Chris Chalupa Model)
